

Multi-Lumen Tubing

Custom Ordered Extrusions

Zeus offers an extensive range of multi-Lumen extrusions.

Overview

Zeus multi-lumens are unique tubular extrusions which provide multiple lumens or passages within a single OD. All multi-lumens are custom designed; they are available in a variety of resins including but not limited to: PTFE, FEP, PFA, PEEK, ETFE, PVDF, nylons, and more. Configurations are almost unlimited and are specific to your application with all aspects kept confidential. Multi-lumen tubing is manufactured with tight tolerances and the highest quality standards. You design, we deliver.

FLEXURAL MODULUS

CHEMICAL RESISTANCE

BIOCOMPATIBLE

Applications

- *Catheters*
- *Endoscopes*
- *Fluid handling*
- *Drug delivery*
- *Fiber optics*
- *Multi-sensor instruments*
- *Connector alignment*

Capabilities and Sizing

- *Extensive range of sizes*
- *Highly customizable*
- *Available in ETFE, FEP, PEEK, PTFE, PVDF, and more*

Key Properties

- *Multiple working channels*
- *Chemically inert*
- *Biocompatible*
